Skills

- **Technical Skills**
 - **Programming Languages:** Java, TypeScript, Data Structures
 - **Test Automation Tools:** RestAssured, Playwright, Selenium, WinAppDriver, TestNG, Postman
 - **CI/CD:** Azure DevOps, Jenkins
 - **Test Management Tools:** JIRA, Azure DevOps
 - **Version Control Systems:** Git
 - **Performance Testing:** JMeter
 - **Databases:** MySQL, InfluxDB
 - **Other Tools:** Docker, Kubernetes
- **Interpersonal Skills**
 - Leadership:
 - Communication
 - Problem-Solving
 - Adaptability
 - Teamwork
 - Continuous Learning:

Education Background

- **Silicon Institute Of Technology, Bhubaneswar**
Bachelors in Technology - CSE
2008-2012(8.21 CGPA)

Certification

- Professional Scrum Master™ I (PSM I) - [Certificate](#)

Achievements

- Got a chance to present on big stages ([Agility Today](#) Conference, Tribe Quonf by TTT).
- Delivered multiple online and offline sessions within and outside my organization.
- Browser Stack champion.

About Me

Highly skilled Tester with 11 years of expertise in software quality engineering, automated testing, and test-driven development. Experienced in backend and frontend testing, with a foundation in software development, including Spring Boot and clean code principles. Proficient in creating comprehensive test strategies and robust frameworks, ensuring high-quality software delivery. Demonstrates leadership through team collaboration and mentorship, actively engaging in QA communities. Committed to continuous learning and driving quality improvements in Agile environments to achieve successful project delivery aligned with business goals.

Professional Experience

Kongsberg Digital | Senior Software Test Engineer-L2

JUN 2021 - TILL DATE

Key responsibilities:

- Designed and developed robust testing frameworks using TestNG and RestAssured for efficient API testing and validation, resulting in a 90% reduction in manual testing efforts.
- Developed and maintained automated test scripts using TypeScript and Playwright, increasing test coverage and reducing regression testing time by 80%.
- Integrated Allure and Reporter for better reporting.
- Integrated automated tests into CI/CD pipelines using Azure DevOps, enhancing the deployment process and reducing release cycles by 30%.
- Collaborated with QA and development teams to establish and enforce testing standards and best practices.
- Reviewed colleagues' work and provided guidance, fostering a collaborative team environment.
- Engaged with stakeholders to provide project updates and reports, ensuring transparency and alignment with business objectives.
- Participated in Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, contributing to continuously delivering high-quality software.

Manhattan Associates | Technical Lead, Quality Engineer

DEC 2018 - JUN 2021

Key responsibilities:

- Framework development for UI and Backend Framework development using Java, Selenium, and RestAssured, increasing test coverage and reducing regression testing time by 80%.
- Leading OMNI Automation team for UI and Backend.
- Mentoring team about framework and scripting; Reviewing their code.
- Setting up logging framework (EFK), Kibana dashboard, and Grafana for better reporting.

Infosys Limited | Test Analyst

APR 2013 - NOV 2018
